LANDY

HIGH PRESSURE WASHERS

Quality and a simple attractive line are combined with solid structure and industrially rated components in this compact, high pressure hot water washer. For ease of maintenance and regular inspection all working parts are readily accessible.

The unit consists of a three ceramic piston pump delivering 11 litres of water per minute at a pressure of up to 100 bar driven by a single phase 2.2kw (3HP) 1400 r.p.m. electric motor. The burner is operated by a separate switch and temperature is thermostatically controlled.

The machine is supplied with 10 metres high pressure hose, 1200mm lance, automatic wash-gun and low pressure detergent facility.
