

TRAFFIC FILM REMOVERS, DETERGENTS & SANITISERS.

PRODUCT & CODE	5 litres	25 litres	205 litres
GRIMESHIFT – STFR . A heavy duty cleaning fluid for the removal of stubborn traffic film from HGV's, buses and cars. Also suitable for engine and chassis cleaning.		£21.74	£151.52
QUADRAMAX ATF - M1ATF A concentrated, multipurpose detergent for high pressure machines. Designed to remove traffic film or degrease engines, chassis and components.		£24.55	
QUADRAPOWER CO - Q1CO A heavy duty, highly concentrated high pressure detergent for all vehicle types. Quadrapower CO is an outstanding traffic film remover. It rapidly degreases engines and machinery and is an extremely effective cleaner for concrete and brickwork. Works well even with cold water and is recommended for coin operated car wash machines. Optimum working strength is 0.25 to 0.5% at the nozzle.	£9.44	£44.84	£344.97
QUADRAPOWER PW3 – Q1PW3 A powerful, highly alkaline, high pressure detergent for the removal of traffic film from vehicles, degreasing engines, and chassis and for general pressure washing duties. Optimum working concentration 0.5 to 1% at the point of application.	£7.93	£35.72	
QUADRAPOWER S3 - Q2S3 This product is a heavy duty, highly effective non-caustic high pressure detergent. It will remove traffic film, grease, oil and general soiling from vehicles, engines, machinery, walls and floors. Optimum working concentration is 0.5% at the nozzle.		£39.20	
QUADRAPOWER XL - Q3XL. High pressure detergent with wax effect. A heavy duty, high pressure detergent for use on all types of vehicle. Quadrapower XL is formulated to remove traffic film and give an outstanding sheen on all finishes. Optimum working strength is around 1% at the nozzle.	£8.47	£33.58	
QUADRAPOWER FB - Q3FB Vehicle cleaning foam blanket. A special preparation for use with foam equipment and in high pressure machines. Normal working concentration 3% with hot or cold water. The foam is free rinsing and leaves a spectacular finish.		£68.89	
CARWASH XL5 WAX RINSE - A5XL5. A special rinse for use after shampooing cars leaving a protective, waxy microlayer with a water repellent finish.		£75.62	
QUADRAPOWER QW - Q3QW. Water softening additive for use in conjunction with solutions of cleaning agents in hard water areas. This product prevents the formation of scale in hot cleaning procedures and enhances the cleaning process.	£11.96	£55.92	
GREASE RELEASE PLUS - E3L529. This is a self-emulsifying solvent type de-greasing and de-waxing agent formulated to deal with oil, grease, wax and other residues in the motor and engineering industries. Apply by brush or low pressure spray.	£9.51	£42.87	
ALLOY BRIGHT - A3AAC. Acidic cleaner for aluminium alloys. Alloy Bright is an acidic cleaner specially formulated to clean aluminium alloy wheels, aluminium clad vehicles, components and fabrications. Alloy Bright will effectively remove dirt, atmospheric tarnish and oxidation. Apply by brush or low pressure spray. Free from hydrofluoric acid.	£9.56	£44.76	

TRAFFIC FILM REMOVERS, DETERGENTS & SANITISERS.

PRODUCT & CODE	5 litres	25 litres	205 litres
ALL WEATHER WASH - A4AWW Windscreen wash additive. This product contains antifreeze and degreasing solvent.	£9.34	£44.56	
CARPET BRIGHT & FRESH - J2HCCD. Detergent for carpet extraction machines. A heavy duty, low foam detergent intended for professional use in wet extraction carpet and upholstery cleaning machines. Releases soil, brightens colours, deodorises and helps to restore the natural resilience of pile whilst leaving a pleasant, fresh fragrance.	£7.38	£32.88	1 litre £1.91
ODOUR CONTROL DISINFECTANT - J3OCD. This disinfectant is very effective against a wide range of harmful micro organisms, is exceptionally efficient at destroying offensive odours. Suitable for sinks, drains, toilets and waste bins.	£6.82	£30.93	
POWER SANITISER - S1AS. Power Sanitiser is a highly active alkaline preparation for cleaning and sanitising in abattoirs and food processing areas where the ability to deal with fat and blood residues and to give reliable sanitising is of paramount importance. Use a 2-5% solution in water depending on the degree of soiling.	£10.49	£50.02	£370.96
SANITISING DETERGENT - S1ZSD pH neutral cleaner/sanitiser. This is an efficient product for use in any situation where a combined cleaning and sanitising action is required. Typical application areas include: food industry and food handling, canteens and kitchens, breweries, dairies and general hygiene maintenance operations. This product meets the requirements of BS EN 1276 when tested at 5%. For all applications the normal working concentrations are between 0.5% and 5%.		£40.73	
ACID BRIGHT - S1ACS. Acidic cleaner/sanitiser. A powerful phosphoric acid based cleaner and sanitiser for use in the food industry. Typical applications include the removal of protein and water scale from stainless steel food processing plant. After removal of gross contamination use a 1-10% solution depending on the degree of soiling.	£11.31	£54.38	
DESCALER - E1MIA. This is a concentrated product based on hydrochloric acid specifically designed for the rapid de-scaling of pumps and heat exchange units in steam cleaners and pressure washers.	£8.52		
QUADRAPOWER AL – alloy safe - Q3AL A non-caustic, aluminium safe high pressure detergent suitable for all kinds of vehicles, motorcycles and caravans. Also suitable for use on light alloys.	£12.09	new!
